FIRE & EMERGENCY EQUIPMENT
CONSULT • SUPPLY • SUPPORT

www.risk-equip.com

Company Overview

- Risk Equip (Pty) Ltd operates within the Risk Group of companies, specializing in the supply of fire, safety, emergency response, rescue, medical, and personal protective equipment (PPE) across South Africa and neighbouring regions. The organisation delivers reliable, compliance-driven equipment solutions aligned with legislative, regulatory, and industry best-practice requirements.
- Risk Equip™ is a South African-based safety equipment provider supporting organisations in high-risk, industrial, mining, energy, municipal, and commercial sectors to achieve legal compliance, operational readiness, and workforce protection through the provision of quality-assured products and technical support.
- Our product offering is aligned with relevant South African National Standards (SANS), Occupational Health and Safety Act requirements, NFPA guidelines, and recognised international safety standards, ensuring that all supplied equipment is fit-for-purpose, compliant, and industry-relevant.
- Risk Equip™ focuses on delivering trusted safety solutions, responsive service, and long-term client partnerships, supported by experienced professionals with strong operational and technical backgrounds in emergency response and occupational safety.

Vision: To be a trusted African supplier of compliant fire, safety, and emergency equipment, delivering protection beyond borders.

Mission: To supply reliable, standards-compliant safety and emergency equipment that enables safe, legally defensible operations across industries and regions.

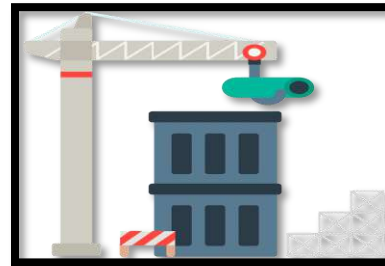

Philosophy: Compliance, quality, and operational readiness are non-negotiable.

Target Industries

Target Industries

- ⚡ Manufacturing & Processing
- ⚡ Petrochemical & Energy
- ⚡ Mining & Heavy Industry
- ⚡ Construction & Engineering
- ⚡ Logistics & Warehousing
- ⚡ Local Government & SOEs
- ⚡ Corporate & Commercial Enterprises

Quality, Compliance & Standards

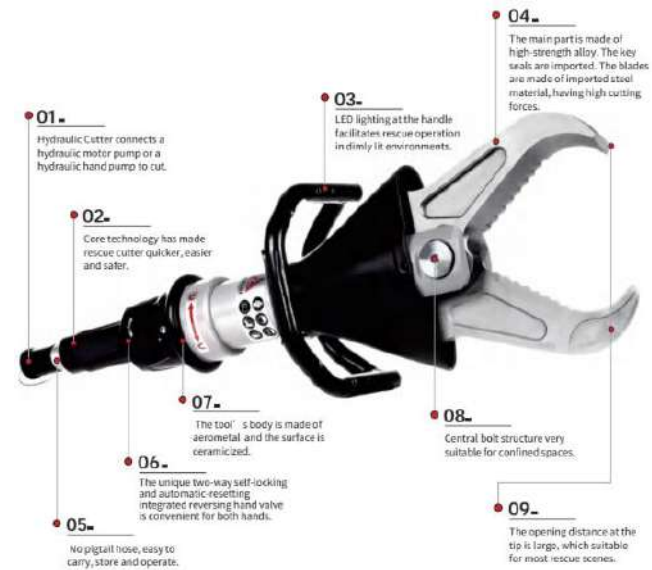

- ⚡ Occupational Health and Safety Act (Act 85 of 1993)
- ⚡ Applicable SANS, ISO and EN standards
- ⚡ NFPA standards (where applicable)
- ⚡ Manufacturer certifications and compliance documentation
- ⚡ Client and site-specific specifications

Vehicle Rescue Equipment

Aolai Rescue Equipment

- ⚡ Hydraulic and Battery Operated
- ⚡ Spreaders, Cutters, Rams

Vehicle Rescue Equipment

Aolai Rescue Equipment

- ⚡ Bag Busters
- ⚡ Edge Protection
- ⚡ Rubber Stabilization Kits

230*150*80

230*230*25

230*230*50

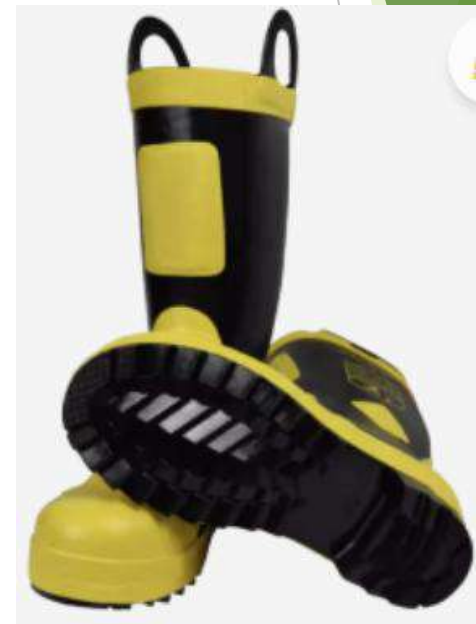

SCBA and SCUBA Re-filling Compressors

- ⚡ Single and Three Phase Electrically Powered, 2.2kw to 7.5kw
- ⚡ Petrol Powered
- ⚡ 100 to 300 litres/min
- ⚡ 300 Bar working pressure

Fire-Fighting PPE

- ⚡ Protective clothing (FR, arc-rated, chemical-resistant)
- ⚡ Gloves, safety footwear and high-visibility wear
- ⚡ Head, eye, hearing and respiratory protection

Fire-Fighting Equipment

- ⚡ Fire-fighting hose
- ⚡ Fire-fighting nozzles
- ⚡ Compressed air foam systems

Fire-Rescue Equipment

⚡ Breaking Tools

Foam and Foam Mist Fire-Fighting Equipment

The Blaze Buster is a rapid response self contained foam mist unit, capable of extinguishing Class A, B and F fires. It features four 230 litre pre-mixed agent cylinders and requires no external water, air or electrical supply to be put to work. Equipped with a high-performance cannon and hose reel, it has a reach of about 40 metres. It can be supplied as a skid unit, mounted on a single or extra-cab pick up, or installed on a customized trailer.

The Roto-Fire Pac is an effective quick-response unit capable of suppressing Class A, B, C and F fires with minimal collateral damage, using dual nozzle functions in jet or mist mode to create a fine atomized spray that penetrates the seat of a fire, eliminates heat radiation and ensures gradual cooling without causing thermal shock to equipment and assets.

SCBA and Airlines Respirators

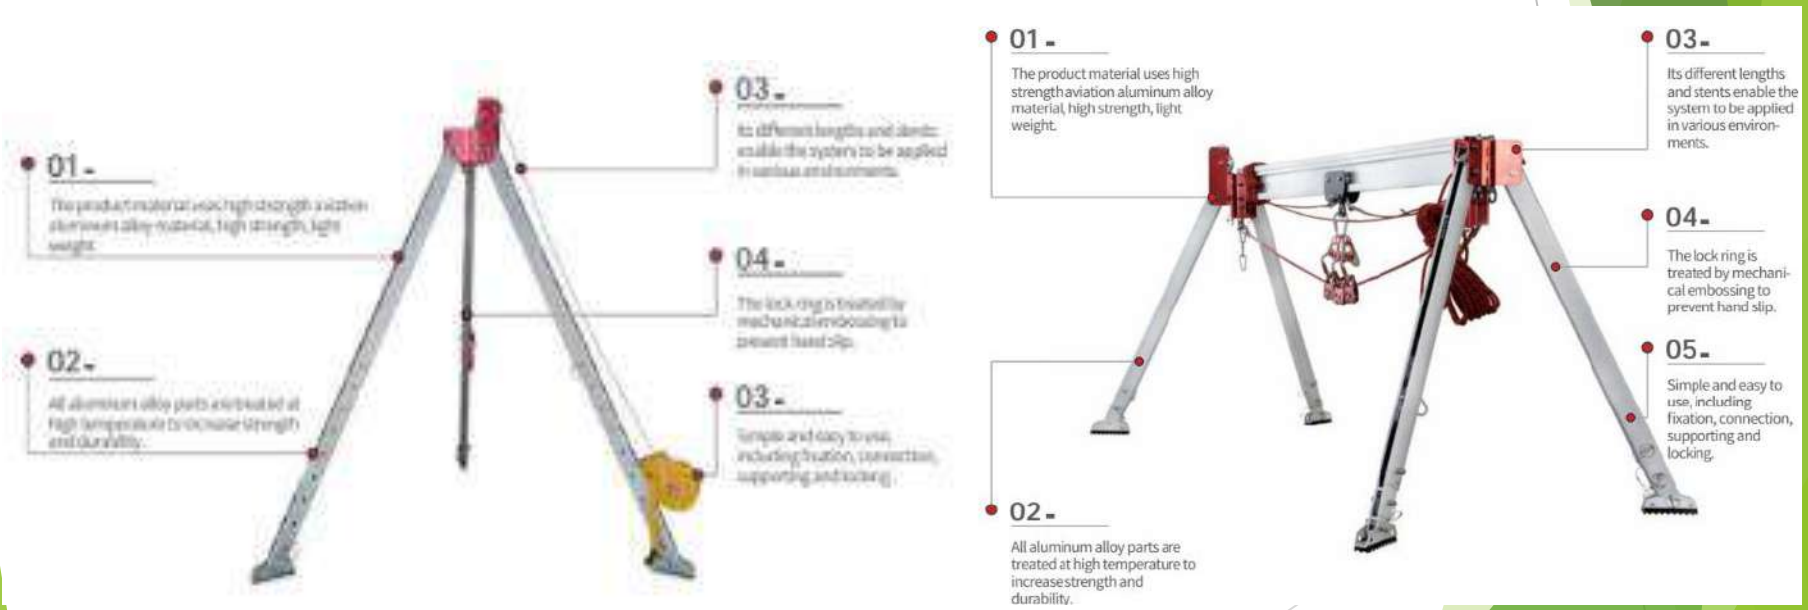

- ⚡ 6.8L full SCBA
- ⚡ Airline Trolleys
- ⚡ Escape / Emergency SCBA

Rope and Confined Space Rescue Equipment

Rescue equipment

- ⚡ Confined Space, Rope rescue and Evacuation Systems
- ⚡ Stretchers, trauma kits and first aid equipment

FLASHGROUP

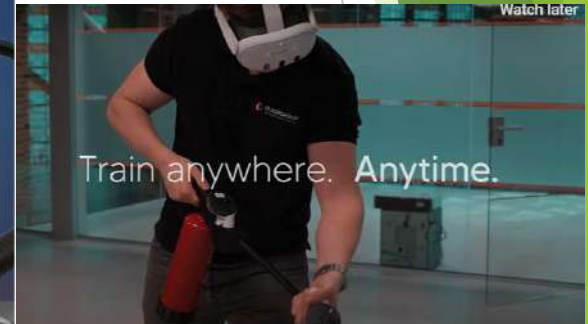

Training of Emergency Services

Virtual Reality with Real World Impact

Flashgroup delivers XR solutions for emergency services. Our products integrate real-world equipment, multiplayer simulations, portable plug-and-play systems and customized content for your country, all with the goal of enhancing the efficiency and safety of emergency response.
